

'Best Tasting' Bottled Natural Spring Water, Aquamantra Debuts at the Natural Products Expo West

Aquamantra® the winner of the 'Best Tasting Bottled Water' at the Berkeley Springs International Water Tasting Competition will debut at the giant Natural Products Expo West trade show to be held at the Anaheim Convention Center in California, March 8-11.

Los Angeles (PRWeb) March 9, 2007 -- Aquamantra® the winner of the 'Best Tasting Bottled Water' at the Berkeley Springs International Water Tasting Competition will debut at the giant Natural Products Expo West trade show to be held at the Anaheim Convention Center in California, March 8-11.

More than 200 people watched at the Country Inn in Berkeley Springs on February 24 as a dozen media judges spent hours tasting more than 100 waters from 23 states and 12 foreign countries from New Zealand and Armenia to Grenada and the Philippines. As a newcomer to the bottled water category Aquamantra's® I AM HEALTHY™, bottled at Mount Palomar in California, was awarded the gold medal for the Best Tasting Bottled Water at what is considered the Academy Awards of water tasting, the Berkeley Springs International. The water tasting is believed to be the "largest water tasting in the world" according to Arthur von Wiesenberger of BottledWaterWeb.com.

Creator of Aquamantra® Alexandra Teklak is delighted to showcase the award winning I AM HEALTHY™ at the Expo; she will also present the equally delicious tasting bottled spring waters I AM LOVED™ and I AM LUCKY™.

Teklak says, "This is our first year at the Natural Products Expo West to show off our unique trilogy of I AM waters designed to satisfy one's thirst, but more importantly to stimulate the soul. It's time to offer up more than just bottled water and provide them with water that enlightens and inspires consumers to create a positive influence in their life. Aquamantra is enthusiastic to say the least, that our I AM HEALTHY™ water took the Gold, it just proves that the energy the words carry is why our water is so fabulous."

Aquamantra® is an award-winning all natural product with an edge. Along with its delicious taste, Aquamantra® distinguishes itself in the bottled water market by its life enhancing mantras on the exquisitely designed labels. By saying or thinking the positive affirmations I AM HEALTHY™, I AM LOVED™ and I AM LUCKY™ and then drinking from the bottle the consumer is infused with positive energy, while attracting love, luck or health into their life.

Alexandra Teklak wants her inspiring drink to remind people that: "You are what you 'think' and now you are what you drink."

Teklak created Aquamantra® based on the scientific work-studies of Dr. Masaru Emoto, who over the past nine years has proven, through the use of hyper-powerful microscopes, that positive and negative words like love, hate and peace written on bottles of water can affect the water's molecular structure. His work is photographically documented in his book "Hidden Messages in Water."

Teklak discovered Dr. Emoto's work while watching the popular movie, "What the Bleep Do We Know?", released in 2004. Motivated by the movie's messages, Teklak created Aquamantra®.

Aquamantra® will be at booth 4677 at the Natural Products Expo West. The trade show opens its doors on Friday, March 9th, at 10:00am.
